

Design Your Future at

produced by **spi**

Can you imagine a world without iPods, cell phones or ATMs?

How about a world without plastics?

spi is producer of

The truth is that none of the gizmos and gadgets that make our lives so much easier and more enjoyable would be possible without a strong, vibrant, and creative plastics industry. In the United States alone, that's 1.1 million men and women who have made up their minds to innovate. You should consider it too.

A Good Place To Start.

Do you know where you want to go to college? Do you know what you want to study when you get there? What about after college, do you have any idea of what you want to do when you're finally on your own? That's OK. Not many of us did either.

We're the Society of the Plastics Industry, Inc. (SPI), sponsor of NPE2009—The International Plastics Showcase. In June, the NPE Show will welcome 75,000 people to Chicago whom we think you might enjoy meeting. These are the men and women who are developing new, breakthrough products, processes, and technologies that drive modern life.

For High School Students With Bright Minds. And Futures!

You're invited to attend the NPE 2009 Student Summit as our special guest. You'll join other high school and college students interested in learning more about the industry and the

dozens of career paths offered by the plastics industry.

Don't Delay Register Today!

Join us with a group, or on your own, for a continental breakfast on Friday, June 26. Participate in polymer science labs, explore plastics processes and new technologies on the show floor, discover exciting careers, and be entered to win prizes that are possible through plastics innovations including: Palm® Z22 PDA, Nintendo® Game Boy®, Apple® iPod® Shuffle™, 256MB USB 2.0 flash drive, hand-held Tetris®, CDs, and DVDs.
